

## PROJECT PREMANKUR (RATNAGIRI)

[A Project for HIV+ve Women and Children]

Just like the bud of a flower that symbolizes the coming of a new life, our new initiative at Maher titled 'Premankur' directly translates as the 'Blossoming of Love' which replicates the expansion of our work to the city of Ratnagiri.

This new project keeping in mind the need for attention to the increasing number of women and children being tested positive with the HIV/AIDS virus in Ratnagiri is aimed at providing these children and their mothers with proper housing facilities, nutrition and medication that is essential due to the nature of their illness.

The final goal of the project would be to provide them with a healthy and permanent accommodation as well as proper facilities to develop and enhance their physical, social, emotional and cognitive development.

The land for the project has yet to be acquired. We are looking at an approximate of 1 acre of land for the establishment of this residential home. The residential home is hoping to accommodate a total of 130 people which includes the construction of 10 separate cottages with attached kitchen and bathrooms for families that would like to live together, but under the shadow of Maher. We also plan to have common residential bedrooms and kitchens for those who do not have any support systems.
